AccuSource launches AccuTalent On-demand Talent Management Made Easy®

Corona, California, July 7, 2009 - AccuSource, Inc. announces the launch of AccuTalent® a suite of products that reduce an employer's cost to hire, by streamlining the talent acquisition and screening processes and reducing an employer's liability associated with negligent hiring.

AccuTalent® automates the processes for attracting, evaluating, selecting and on-boarding applicants. "With AccuTalent®, you'll be able to identify the applicants who will deliver the job performance you're seeking, with and ROI that will exceed your expectations.

AccuTalent® key features include: requisition management, referral source tracking, resume and application collection, applicant qualification, predictive pre-hire assessments, (integrated background checks, drug testing, tax credits, electronic I9 storage and E-verify), appointment scheduling, applicant ranking and notes, offer and acceptance letters, new hire processing and form completion, contact logs and analytic and activity reports.

"We will continue to provide our clients with the most advanced functionality that delivers the best return on investment for recruiting and hiring talent," said Peter Stocks, Vice President of Sales at AccuSource, Inc. "We are proud to have a very loyal customer base, and we will continue to deliver solutions that meet their ever-changing and demanding hiring needs."
